IbisDev – Developer Front React - Next

05/2023 to 11/2023

IbisDev is a software factory that allowed me to work on several English projects:

CIFI, a non-bank financial entity based in Panama. A team of ten people following the agile methodology, next and nest.

CarryMe, visual and functional update with the initialization of payment method and integration of STRIPE, alone on the front accompanied by product manager, project manager and a graphic designer.

Private Label London, a 3D watch configurator in partnership with Rolex, react with the use of SketchFab, guide by a project manager, technical manager, a graphic designer and 3D designer.

Skills :

- React, NextJS, Typescript, Redux, Sass, ES6, MUI
- Figma, Sketchfab, Jira, STRIPE, Gitlab
